Note: The figures above represent outcomes reported throughout the month. A Temporary Assistance (TA) participant may be included in one or more of the reporting categories during a given month. The process of drug testing TA participants involves a number of steps. For example, a participant may be referred for testing one month, scheduled to test the following month, and receive test results the month after being tested. Thus, results will not equal referrals in any given month.

Note: The figures above represent outcomes reported throughout the month. A Temporary Assistance (TA) participant may be included in one or more of the reporting categories during a given month. The process of drug testing TA participants involves a number of steps. For example, a participant may be referred for testing one month, scheduled to test the following month, and receive test results the month after being tested. Thus, results will not equal referrals in any given month.

Note: The figures above represent outcomes reported throughout the month. A Temporary Assistance (TA) participant may be included in one or more of the reporting categories during a given month. The process of drug testing TA participants involves a number of steps. For example, a participant may be referred for testing one month, scheduled to test the following month, and receive test results the month after being tested. Thus, results will not equal referrals in any given month.
